

Fire Safety First
The Fire Safety Consultancy

Environmental Policy Statement

Our Commitment

Fire Safety First is the leading independent fire safety consultancy in Northern Ireland providing a wide range of services from fire risk assessments and fire safety training to fire dynamics simulation.

We recognise our responsibility to prevent pollution in all parts of our operations, safeguard the environment and take positive steps to minimise the environmental impacts of our operations.

We aim to comply with applicable environmental legislation and industry codes of practice, and seek to implement good practice.

Our aims

- To control and minimise our impact on the environment.
- To use energy and water efficiently and optimise our use of natural resources.
- To minimise the volume of waste deposited to landfill by re-using and recycling materials wherever possible.
- To encourage modes of transport, which minimise environmental impact, ensure that our staff are aware of efficient driving and examine the operation of our vehicles.
- To ensure that our staff are aware of relevant environmental issues, and of their own roles and responsibilities.
- Minimising carbon emissions from energy consumption and travel.

Our responsibilities

- We will ensure that resources are available to enable us to achieve our objectives and targets.
- All employees have a responsibility in their area to ensure that the aims and objectives of the policy are met.

Communication

This policy is communicated to all our staff. The policy is available on request. This policy is also available on our website at www.firesafetyfirst.co.uk and our internal network.
